12) Click **“Yes”** to reboot your computer

13) After the your PC reboots you will need to configure Blackboard drive. Please follow these steps in **Part 2**

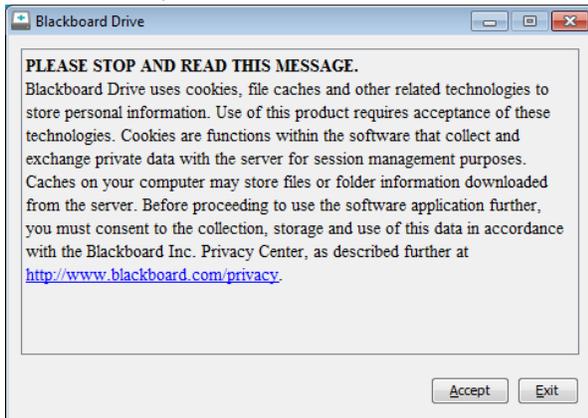

PART 2

Setting up your web folders for Blackboard Drive access

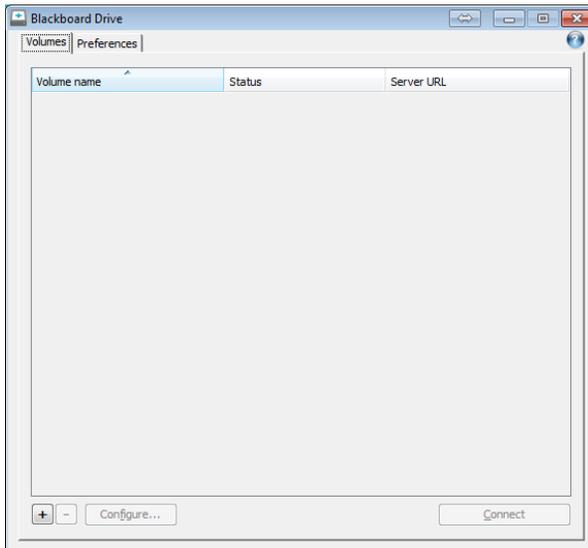

1. Open the Blackboard Drive software from the icon located on your desktop. If it does not open you will have to click on the same icon in the systemtray located to the left of the time in the bottom right of your desktop.

2. Click on Accept

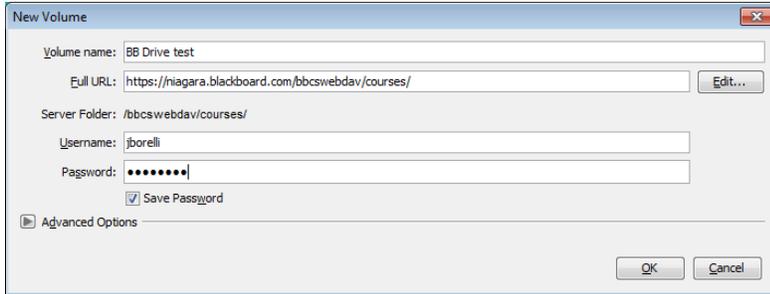

3. Click on the "+" on the bottom left of the **Blackboard Drive** window to create a new drive.

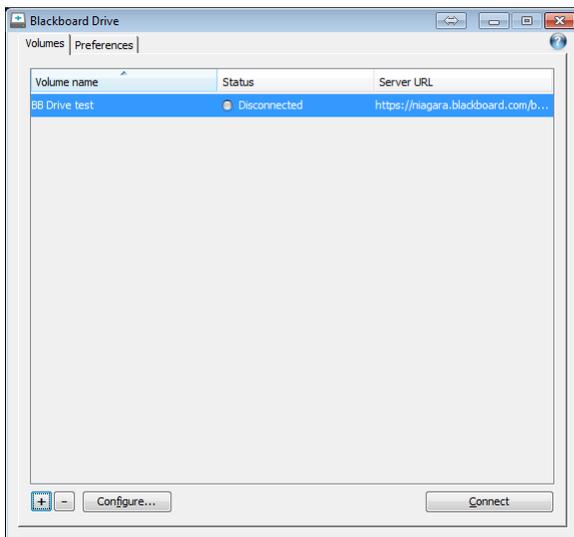

4. **Step 1.** In the box beside Volume name, type the name you would like to assign for your drive
5. **Step 2.** Type the following address into the box beside Full URL.
"**<https://niagara.blackboard.com/bbcswebdav/courses>**"
6. **Step 3.** Enter your blackboard **Username** and **Password**

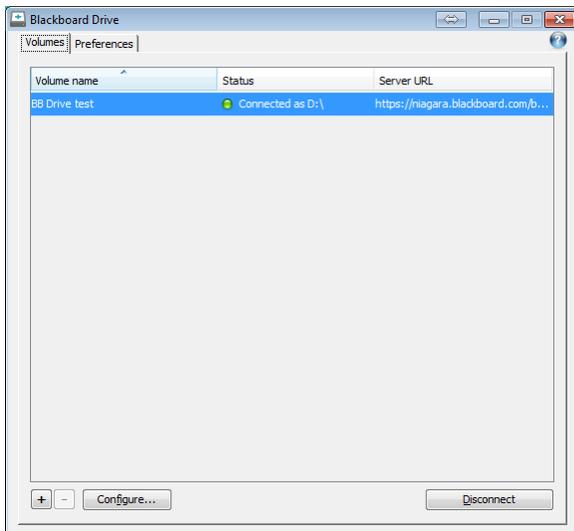

7. Check the box beside **“Save Password”** below the username and password
8. Click on **OK** to complete the setup

9. Click on the **“Connect”** button on the bottom right of the window

10. Your drive should now show as connected. Once it shows you as connected you may close this window by clicking the red box in the top right.

11. Open your computer icon to access your drives. You should now see a new network location with the name matching the volume name you specified earlier.
