

Microsoft Teams Installation for Android Devices

To begin installation of Microsoft Teams please select and open the 'Google Play' app on your Android device. It will look like the icon in the screenshot below.

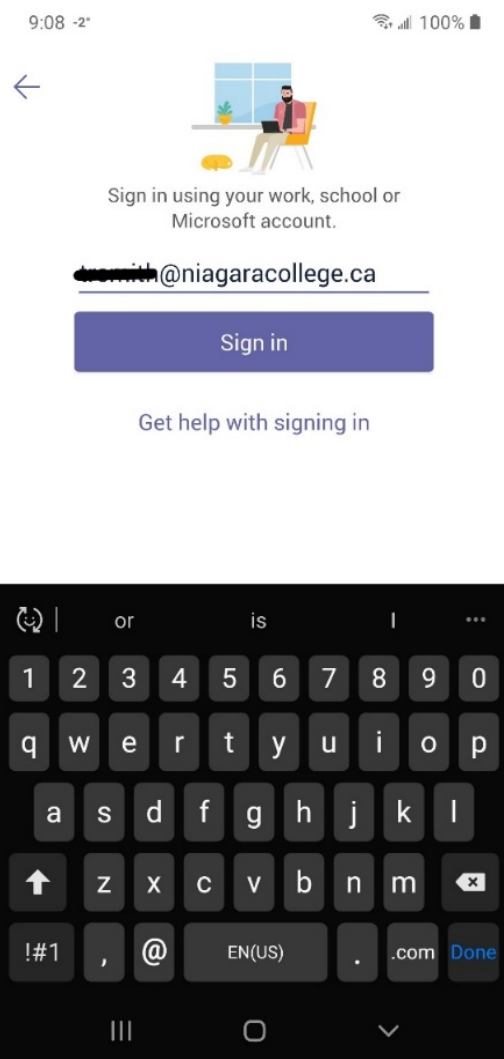

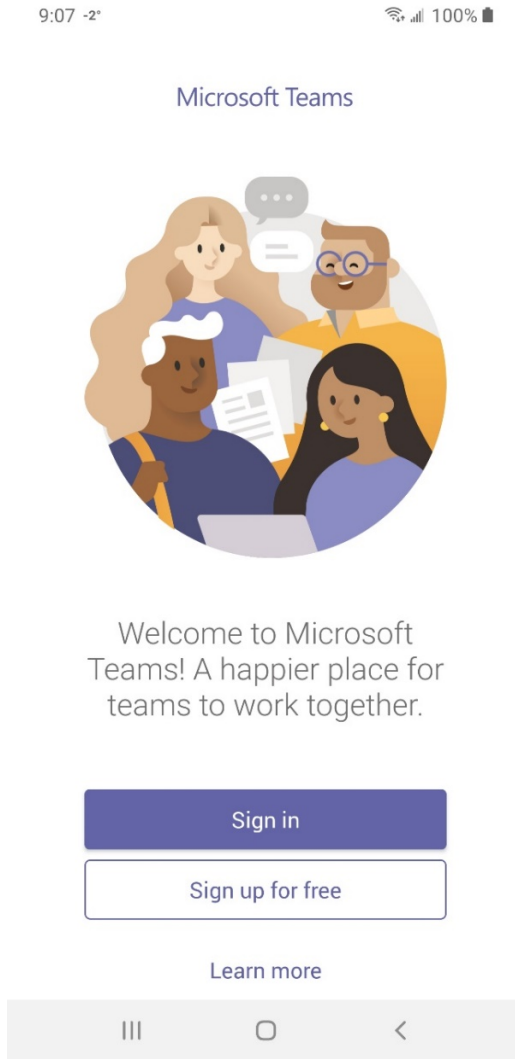

Once into the Google Play Store please click on the search button (magnifying glass) and type in 'teams'. This will bring Microsoft Teams as a selection for downloading. Click the install icon and proceed with installation as shown on the left of the next page.

When installation has completed exit google play (square icon on the bottom of the screen will go back to main screen).

To being using Teams select the Teams icon, shown on the right screen, to start the application and sign in.

Teams will ask you for login information, click 'sign in' and enter your Niagara College email address and password.

When you have successfully signed in you will be presented with the Teams application with the familiar areas such as Teams and Chat.
